

English

Fiction:

To write own traditional type story based on the plot of "The Whistling Monster" by Jamilla Gavin.

The children will create shadow puppets to support their own story writing - linked to our science topic of light.

Non-Fiction :

Explanation Text:
Musical Instruments.

Poetry:

Including "Window",
Rainbows", "The Sun" and "The Night is a Big Black Cat".

The children will explore imagery and use of simile, metaphor and other figurative devices to 'paint a picture'.

Music

We will be having fun identifying the different creatures in the music "Peter and the Wolf". Then we will explore for ourselves how to change pitch and volume and how different sounds are produced by different musical instruments. We will be creating our own musical stories and making our own musical instruments. We will enjoy learning our Disney songs ready for our music day in June.

Art and DT

Linked to our topic of light, the children will learn how to mix colours to make a colour wheel and learn how to add light and shade to their artwork.

As part of our learning of sound, the children will make their own musical instrument and describe how it works.

ICT

We will be learning how to insert sound bytes in to a multi-media presentation. The children will then design their own stain glassed window using ICT and print this off on to acetate. This will take the theme of Pentecost and will also link to our learning about light.

French

We will be learning to ask "how are you?", "what is your name?" and "where are you from?".

We will revise colours, numbers and body parts and continue to use French greetings on a day to day basis.

Light and Sound

Topic Web - Fernworthy Summer 1

Maths

We will be learning about time before moving on to decimals, linked to earlier learning on fractions. The children will learn the formal methods of addition, subtraction, multiplication and division and will be working with measures.

PSHE

Dear Diary- We will consider where to go for help. We will explore what it means to 'take responsibility' and making good choices. Drugs education - this will be taught in separate year groups.

Science

Light and Sound

We will investigate light sources, making shadow puppets and exploring translucent, transparent and opaque objects.

We will make a sundial and investigate shadow lengths.

The sound element will be taught through music.

RE

Easter

Through art, drama, dance and discussion, the children will:

- Explore what happened after Jesus rose from the dead.
- Get to know the story of the Ascension of Jesus into heaven.
- Consider the story of

PE

Tennis: We have been given the opportunity for four weeks' tennis coaching followed by a final session at Bovey Tracey Tennis Club.

Athletics: Taught by Coach Chris

Outdoor Education: The children will be working on the 'John Muir' award in their weekly outdoor education sessions
